

**Show Your Support
of Our Compromise Proposal
for the North Golf Course**

The advisory board's proposal offers a way forward for both the university and the community. It is important to let the Regents know that you support a permanent, green resolution to this decades-long conflict. **Please take a few minutes to write or call members of the Board of Regents. It is important to be polite and respectful**, but let them know how much you cherish the golf course, and how you value its preservation. If the Regents choose to endorse the advisory board's proposal, this precious green space could be enjoyed for generations to come.
